JAN 4-15, 2021

M-F

6:00 PM – 9:45 PM

Final Exam Jan 19

Earthquakes! Volcanoes!
Sandstorms! Asteroid
Collisions! Canyon hideouts for
bad guys! Learn how geology
has been depicted in selected
movies from 1902 to the
present. You will watch film
clips with geological motifs as
you examine the history of film
to understand how the science
of geology has developed over
the last 117 years alongside a
changing American society.
This course gives you access
to clips from and summaries
of these classic movies that
can be used in your
classrooms to augment and
illustrate geologic concepts in
a fun way. It also trains you
distinguish science fiction from
science fact in the movies.
